Dear Mr. Weisberg,

I have been researching the J.F.K. assassination for over 3 yrs. I have also read 4 of your books and find them to profess an overwhelming truth that the entire Warren Report has failed to produce. I believe that our government, through it's institutions & agencies has "Pulled the Sheet" over the American Peoples' Eyes, not only in the J.F.K. assassination, but in the last 10 years of political assassinations that have strongly stirred our country in and out of turmoils & conflicts. Sometimes I wonder if the American people really care, or are they happy just to let things slide & be content until their time comes to an end! Well, I for one am not content! I believe that the J.F.K. Assassination should be reopened & I will continue to research this tragic event until every last fact is presented to the American People.

You have stated several times in your books that you have lectured to certain groups throughout the country; I would like to know the procedures in contracting you and the basic format of your lectures.

Please send this along with an order form & price list of the following 3 books:

C.I.A. White Wash "Oswald in New Orleans."
Post Mortem: "Suppressed Kennedy Autopsy."
Post Mortem III. "Secrets of the Kennedy Autopsy."

Sincerely Yours,

Casey J. Quinn
